**Subject:** An interesting MSDS for consideration in the GHS-related changes to the HCS

Mike:

Meant to include a reference to this data sheet [see attached] in the comments I submitted for Worksafe. In particular, see the "Inventory status" in section 15, with the various lists they name that include glutaraldehyde. I have not had time to track down the inventories or lists to which they refer. If and when I do, I'll send you the links.
